16. REMARKS

Block 4 - Modify DID as follows:

10.3 Format and Content. Add following at beginning: The report shall be generated with a word processor application. Softcopy shall import directly to the word processor application used with MSIC networked workstations (currently Microsoft Word for Windows NT).

10.3.1 Funds and man-hour expenditure summary. Note: Figure 1 is example chart format only. Chart format is contractor choice.

Block 9 a) Distribution Statement F: Further distribution only as directed by the Office for Integrated Intelligence, MSI, Missile and Space Intelligence Center, or higher DoD authority; date of determination 12 March 1993.

b) Export-Control Act Warning: Not Required.

c) Destruction Notice: Not Required.

Block 11 and 13 - Cutoff day is last day of each month. Report is due on 15th day of each succeeding month.

Block 12 - First report due 15th day of 2nd month after contract award.

Block 14 - Softcopy on electronic media compatible with loading on MSIC Net (Currently CD). DISTRIBUTION: Contracts Office (MSM-1) (1Hardcopy), COR (1Softcopy), TPOC - See Delivery Order (1 Hardcopy)

16. REMARKS

Block 4 - Modify DID as follows:

10.1 Content - The delivered software shall include all source, object, executable and script code necessary to install and run computer software configuration items (CSCIs)/models with capabilities specified by the SOW on the designated MSIC computer operating system (currently networked PCs with Windows Operating System for JRAAC models or networked NT and Unix workstations supported by Unix servers for MSIC IADS models). Software documentation for specifically developed software will be specified in the SOW to be in contractor format or format specified in the associated DIDs identified below. COTS software documentation shall be vendor format. The software documentation for specifically developed software shall: (1) present the software design requirements derived from the Government furnished engineering design and describe the design of the CSCIs/models (DI-MCCR-80017A - Software Design Documents); (2) describe how to test the software (DI-MCCR-80014A - Software Test Plan & DIMCCR-80015A - Software Test Description); (3) provide test results to show how the software meets design requirements (DI-MCCR-80017A - Software Test Report); and (4) describe how to load and run and the CSCIs/models (DI-MCCR-80021A - Software Programmer's Manual, and DI-MCCR-80019A - Software User's Manual).

10.2 Media - The software and script provided to load the software on Government computers and electronic copy of software documentation shall be delivered on electronic media compatible with loading on the JRAAC and MSIC Nets (currently CD). Printed copies of software documentation shall be on letter size paper (8 1/2" by 11").

10.3 Format - The software documentation shall be generated with a word processor application that will import directly to the word processor application used with MSIC networked workstations (currently Microsoft Word for Windows 2000).

Block 8 - Gov't technical monitor will review, comment, and return draft of software documentaion w/in 10 working days. Final softcopy documents due 15 days after receipt from Gov't.

Block 9 a) Distribution Statement F: Further distribution only as directed by the Office for Integrated Intelligence, MSI, Missile and Space Intelligence Center, or higher DoD authority; date of determination 12 March 1993.

b) Export-Control Act Warning: Not Required.

c) Destruction Notice: Not Required.

Block 14 - Draft and final copies of software documentation shall be two printed copies and one softcopy. Draft and final copies of the software and associated script files needed to install the software shall be two softcopies (TPOC and End Item User).
